DEBB'S PRONOUNCEMENT.

The Railway Union Throwing a Labor Day Protest.

(REGULAR ASSOCIATED PRESS REPORT.)

TERRE HAUTE (Ind.), Aug. 5.—A special to the Herald from Washington, D. C., says that Minister Dun has been appealed to dispose of the case of the Japanese.

In the introduction President Debb says that the union is growing daily, and that all doubt has been dispelled as to its permanent character. Unions that were believed to have been dead have been revived as it by magic. The three month's sentence which the directors of the union received will expire on August 22, and on that day they will renew their initial duties.

The president serves a six month term, which does not expire until December 22, when he will join the rest in the campaign in the interest of the union.

The union concurs in the recommendation of Minister Dun, and will follow in the footsteps of the Federal court, by virtue of which trial by jury has been abolished and civil liberty impugned to death.

The latter half of the circular is devoted to an attack on the old brotherhoods. He says they are disgraced or dead, or both.

NO MONEY FOR ART.

Herald's Printing Will be Taken from the White House.

(REGULAR ASSOCIATED PRESS REPORT.)

WASHINGTON, Aug. 5.—When President and Mrs. Cleveland return to the White House there will be one noticeably vacant space on the side walls of the upper corridor, where Bierstadt's famous painting formerly hung.

This picture was never owned by the United States government, but was used in the White House panel upstairs at the suggestion of President Arthur. It was his desire that this work of art, which represented the greatest feature of Western scenery, the great geysers and the rugged mountains, should be purchased by the government, but this was never accomplished. Bierstadt eventually mortgaged the picture to a party of capitalists, who have given orders for its removal from Washington, preparatory to being sold to the highest bidder.

A Shocking Assault.

MONTREAL, Aug. 5.—A dispatch from St. John says that a shocking assault occurred at Irberville, opposite here, last week. Four men brutally assaulted a fourteen-year-old girl who was found tied up to a tree with a log in her throat to prevent her crying.

Electricity for Steam Railroads.

PHILADELPHIA, Aug. 5.—The successful use of electricity as a motive power on steam roads has led the Baldwin Locomotive Works and the Westinghouse Electric and Manufacturing company to effect a combination for the development of apparatus for the operation of steam railroads by electricity.

A DRUNKARD'S CRIME.

NEWTON LANE SHOTS FATHER AND SONS.

The Traveling Agent Resents the Efforts of the Rodenbaughs to Eject Him from Hotel Woodford at Versailles, Ky.

(REGULAR ASSOCIATED PRESS REPORT.)

LEXINGTON (Ky.), Aug. 5.—Newton Lane of Mt. Sterling, who figured in several fights in Lexington last fall as a partisan of Col. Beckridge, killed James Rodenbaugh and fatally wounded H. C. Rodenbaugh, owners of the Hotel Woodford at Versailles, Ky., in the rotunda of their hotel at 4 o'clock this afternoon. The parties are all prominent.

ANOTHER ACCOUNT.

VERSAILES (Ky.), Aug. 5.—H. C. Rodenbaugh, proprietor of the Hotel Woodford, was shot and mortally wounded, and his son James Rodenbaugh was instantly killed this afternoon by Newton Lane, agent for a Lexington manufacturer.

Lane came to the hotel drunk. He found fault with the room to which he was assigned, and began abusing H. C. Rodenbaugh, who is an old man. Young Rodenbaugh drew a revolver and ordered Lane from the house. Lane drew a revolver and began firing, with the result stated. The senior Rodenbaugh is a leading Republican of his district, and well known on the Kentucky turf. Lane is in jail.

Children State Affairs.

NEW YORK, Aug. 5.—A Herald special from Valparaiso, Chile, says that Senator Eduardo Videla was elected President at a recent session of the House of Deputies. It is already openly charged in Conservative circles that the new ministry is bound to be short-lived. Attention is called to the fact that the same promises to uphold the treaties to solve the financial problems of the country, and in fact to keep all pledges made by the ministry which has just been overthrown.

A Belgian Bank's Loss.

BRUSSELS, Aug. 5.—When the cashier of the savings bank opened the cash-box this morning he found \$183,000 in banknotes was missing. As the box had not been broken open and there were no signs of the lock having been tampered with it was presumed that the money was abstracted before the cash-box was closed and placed in the safe.

SUGAR OF LEAD

A Schooner Loaded by Night with Winchesters.

Further Startling Disclosures of the Plot to Capture the Islands.

Rudolph Does Not Publish Rumors and Wed the Princess, but Marries a Young Society Woman of San Francisco.

(REGULAR ASSOCIATED PRESS REPORT.)

SAN FRANCISCO, Aug. 5.—(Special Dispatch.) The Hawaiian exiles were very scarce about their haunts today. The Occidental Hotel was deserted, save for the Ashfords, and none appeared about the restaurant headquarters until a late hour at night.

It had been learned that when the schooner Annie was here, some months ago, she lay about a quarter of a mile off Spreckels's sugar refinery. Instead of being discharged, the crew was kept on the vessel. Nightly, for two weeks, a Whitehall boat was worked from 8 to 10 o'clock at night, running from the vessel to the shore. This boat took out from two to three boxes at each trip and made about three trips a night. The boxes were estimated to be about a foot square and five feet long each, by a person who watched the proceedings. They appeared heavy, and were safely stored in the hold of the schooner.

Just as soon as the cases were shipped the vessel dropped down to the wharf, received its cargo and sailed away for the Spreckels's plantation on the islands. The description of these cases indicate the manner in which the Winchester Arms Company ships its rifles. It would give color to the statement of Morrow that a large quantity of arms was on the island of Maui, and for that reason the circumstance is important, and is so regarded here.

In this connection it is interesting to learn that, several months ago, the manager of a local tug company was approached with an offer for the purchase of one of his best crafts. He was informed very directly that the use to which the vessel was to be put was to carry arms and men to one of the Hawaiian Islands, and the offer was refused. It is certain that the man Morrow had effective backing. He boasts of it and says now that he will not reveal any portion of his story because he expects to be well paid for what he has already done.

The marriage of Rudolph Spreckels and Nellie Joffe did not surprise any one who was acquainted with the social life here. He has been a social favorite here for at least twelve years and, though the marriage license gives her age as 23, she is at least 20. Spreckels had been her warm admirer for several years, but every one supposed that it would occur for some time. They would have a big church wedding. Instead, they were married quietly one hour after the license was procured.

"She had a surfeit of swell weddings," her sister, Miss Minnie, said, when explaining why the marriage was quiet, and said that when the ceremony was being performed she was privately surprised.

Spreckels always disliked the idea of having a public wedding. In fact, she quite shrank from it as a trying ordeal.

And then Miss Joffe went on to say that the wedding was not decided on hurriedly. The family had known at what time it would occur for some time. She said every endeavor had been made to withhold knowledge of it from the public until after the ceremony on account of Spreckels having undergone so much annoyance from his recent notoriety in connection with the litigation between himself and his father and brothers.

When Miss Joffe was asked last fall to verify the report of her betrothal to Claus Spreckels, youngest son she flushed and in an embarrassed way said, "Oh, we're not engaged—really we're not. It's only an interesting friendship."

Miss Joffe and Mrs. Gus Spreckels have been friends for years. Mrs. Spreckels is very partial to her brother-in-law, Rudolph, and she has done everything that she could to promote his welfare.

SECRET SERVICE AGENTS WATCHING.

TACOMA (Wash.), Aug. 5.—For several months past the Hawaiian government agents on Puget Sound, one of the agents has been stationed here for some months on the watch for exports of arms and ammunition over the Northern Pacific to be sent by sailing craft to the islands. He bears letters of authority given by E. G. Hitchcock, marshal of the Hawaiian republic.

"Jack" McDonald, a Seattle detective, here assisting him, it was learned today that all points in the Northwest through which arms or ammunition could arrive for transshipment to the islands are being closely watched. These points are Everett and Seattle, terminals for the Great Northern; Vancouver, the terminus of the Canadian Pacific; Victoria, Port Townsend and Tacoma, terminals of the Northern Pacific.

THAT SCOTLAND DEPARTMENT.

WASHINGTON, Aug. 5.—The story of the organization of a large filibustering expedition at San Francisco to attack the Hawaiian government and re-enthronize the Queen has given no concern at the State Department for the reason that several similar publications recently have been shown, after

careful investigation, to be groundless.

It is not doubted that some person or persons in San Francisco have been encouraging the idea that they are engaged in organizing such expeditions, but their motives are believed to be a desire to achieve notoriety or some ulterior reason.

That the last motive may be the correct one in this last case is suspected at the department from the fact that the organizers have generously asked each applicant for enlistment to put up the sum of \$16, ostensibly for clothing and arms.

ARTHUR WILDER LAUGHS.

CHICAGO, Aug. 5.—Arthur Wilder, the young Hawaiian who was private secretary to the royalist council of the Dole provisional government, passed through Chicago today on his way from Honolulu east. Wilder is inclined to laugh at the stories of royalist uprisings at Honolulu.

"The government is too thoroughly established," he said, "to fear any attempt to place the ex-Queen on the throne. Attempts must be made, but they are sure to fail, for the royalists are not strong enough to make the revolution successful."

DID NOT MARRY THE PRINCESS.

SAN FRANCISCO, Aug. 5.—Rudolph Spreckels, the millionaire sugar magnate, "Sugar King," was married today to Miss Nellie Joffe, a prominent young society woman.

A CINCINNATI FIRE.

What's-hoofs and Steamers Big Sandy and Carrollton Burned.

CINCINNATI (O.), Aug. 5.—About 2 o'clock fire broke out on the Big Sandy, the wharf-boat. It spread rapidly and soon swept out the wharf-boats of the Louisville Mail Line and New Orleans and Memphis Line. At 2:30 o'clock the steamers Carrollton and Big Sandy were burned and everything in port was threatened.

Before 3 o'clock the fire was under control, but a number of wharf-boats were totally destroyed, others damaged, and two steamers, the Big Sandy and Carrollton, were burned to the water's edge. The loss on the Big Sandy was \$200,000, on the Carrollton \$300,000, not including the cargoes. The loss on wharf-boats makes a total loss of over \$100,000.

The Big Sandy came in today from Louisville and was unloading and loading preparatory to returning to Louisville tonight when the fire broke out in some of the wharf-boats. It spread like an explosion to the wharf-boats and other craft. The Carrollton was next to the Big Sandy and could not pull out in time to save herself. All the boats in the harbor pulled out and proceeded to fight the fire. No one was injured or killed on the landings and the wharf and the two steamers. The roustabouts were asleep they may be lost.

LATER:—All are accounted for at the river-front fire. No lives were lost.

DIED IN A PAINT.

Murderer Leach Shocked to Death While Unconscious.

(REGULAR ASSOCIATED PRESS REPORT.)

SING SING (N. Y.), Aug. 5.—Richard Leach was electrocuted at 11:10 o'clock today. Leach killed Harry Moore, a Newark, N. J., miser, after frequent quarrels on account of attentions paid the woman by her uncle, S. H. Moore. The crime was committed on November 18, 1894. After cutting the woman's jugular vein, Leach tried to commit suicide by cutting his throat with the same knife.

The witnesses entered the death chamber at 11:08 o'clock. Electrician Davis then made the usual test of the electric apparatus by placing about twenty-five incandescent lamps on the chair. He explained that this was the amount of current which would be sent through the condemned man's body. Warden Sage went to Leach's cell at 11:12 o'clock, and told him that his time had come. Leach promptly responded: "I am glad of it, warden; I am ready to go."

Before he started for the execution chamber he asked Warden Sage to give him the lock of hair of his dead wife which he had kept since the day when he was first brought to prison. He told the warden that he wanted to die holding this lock of hair in his hand. The request was granted.

Leach, leaning on the arm of Capt. Ward, entered the chair at 11:15 o'clock. He was very weak, and almost immediately after he sat down in the chair he fainted. He was in this condition when the fatal shock was turned on. After the current had been on one minute and fifteen seconds, it was turned off, and the doctors gathered about the chair and began to examine the body. There was no sign of pulsation or heart-beat, and the doctors, after conferring for a minute or two, decided that a second shock was unnecessary, and pronounced the man dead. The body was then removed from the chair.

There were 1700 volts turned into the body, and the current was reduced to 100, after which it was again raised to 1700 and reduced to 300. The current was turned on 1 minute and 50 seconds before he was pronounced dead. Leach fainted before the current was turned on.

A LABOR SCHISM.

Efforts to Patch Up Harmony at Chicago Are Unsuccessful.

(REGULAR ASSOCIATED PRESS REPORT.)

CHICAGO, Aug. 5.—So wide and deep is the breach between labor organizations in Chicago that all efforts to patch it up in order to have one big parade on Labor day were fruitless. There were to be two parades at least appears certain. Meetings of both the trades and labor assemblies were held last night, but nothing was done toward bringing the two bodies together in the parade. The Entertainment Committee of the Trades and Labor Assembly announced that it had accepted the invitation of the Building Trades Council to co-operate with the latter organization, and that it had decided to hold a large building trades council picnic at Ogden's Grove. This means that these two bodies will parade together.

At the meeting of the Labor Congress it was decided to invite all central organizations except the Trades and Labor Assembly to unite with all bodies except the Trades and Labor Assembly.

Emperor William in England.

COWES, Aug. 5.—Emperor William of Germany arrived here this afternoon on the imperial yacht Hohenzollern. He was welcomed by the British fleet, German ironclads and British guardship Australia. He was met by the Prince of Wales and the Duke of Connaught on behalf of the Queen; landed and visited Her Majesty at Osborne.

The Queen's special guard was drawn up at the landing pontoon. Emperor William is in excellent health and spirits, and was cheered with enthusiasm. He dined with the Queen at Osborne.

A Crowded Meeting at Shanghai at Which Some Resolutions Were Adopted to Appeal Directly to the Great Powers.

YOKOHAMA, Aug. 5.—(By Asiatic Cable.) Continuous rains have ruined the rice crops in many parts of Japan and a famine is feared. Many lives have already been lost; the damage is enormous.

EUROPEANS AT SHANGHAI PROTEST.

SHANGHAI, Aug. 5.—At a crowded meeting today of European residents of this city speeches condemning the action of Chinese authorities in the case of the massacre of missionaries at Wha-Han near Foo-Chow on Thursday last, were made, and resolutions were adopted to appeal directly to European governments against the outrage. The resolution also referred to the inadequate manner in which China dealt with the perpetrators of former outrages.

MEAGER INFORMATION.

LONDON, Aug. 5.—At the Chinese legation here it is stated that no information has been received regarding the massacre of missionaries at Wha-Han. The correspondent says that the missionaries killed at Ku-Chang were murdered by an organized mob of eight of the Vegetarians. The correspondent says that the missionaries were particularly yielding their property and valuables, but the leader of the band shouted his orders to kill them outright. A corrected list of the victims is as follows:

"REV. MR. STEWART.

"MR. STEWART.

"MISS NELLIE SAUNDERS.

"MISS LENA IRISH.

"MISS STELLA NEWCOMB, was appeared and thrown down a precipice.

"MISS MARSHALL, had her throat cut."

"MISS GORDON, appeared in the head."

"MISS TOSBY SAUNDERS, appeared in the brain."

"MASTER HERBERT STEWART, skull fractured and brain."

"LINA STEWART, died from the shock."

The correspondent concludes: "Four other Stewart children and Miss Codrington were injured and wounded. The Chinese magistrate at Ku-Chang waited for the completion of the massacre before appearing on the scene. There are a number of soldiers at Ku-Chang. It is therefore absurd to say that the authorities could not have stopped the massacre, which was evidently secretly and carefully organized. The American mission at Shanghai, where missionaries have been destroyed and the missionaries are fugitives."

The American Consul has advised the missionaries to avoid publicity to their retreat. Some of the speakers at today's meeting declared that they have lost confidence in the diplomats at Peking. The United States Minister Denby and British Minister O'Connor were particularly denounced. The Americans desire a special commission under United States Consul Jenning to inquire into the outrages at Shanghai.

It is learned that after the Ku-Chang massacre the mob looted the buildings.

EX-CONSUL GRACEY TALKS.

BUFFALO (N. Y.), Aug. 5.—Samuel Gracey of this city, late United States Consul at Foo-Chow, China, was interviewed today on the reported massacre at Ku-Chang. Gracey said: Ku-Chang, the place mentioned in the press reports as the scene of the latest anti-foreign riots in China, is in the Fukien province, where foreign missionaries have been broken in, the blade above Foo-Chow. It is fully 100 miles from Pagoda Anchorage, the highest point of navigation for steamers in the Min River; hence is entirely beyond the protection of gunboats.

The literature has been stirring up trouble against the foreigners as to there for many months and the danger to life and property became so great that about two months ago all American residents were recalled to Foo-Chow. These were the Rev. and Mrs. W. C. Wilcox and three children, Miss Chatford and Miss Rouse, of the Woman's Foreign Missionary Society and all of the Methodist church. The other foreigners there were three or four members of the English church mission, who may not have been recalled during the recent troubles. It is probable that matters may have quieted down here after the foreigners came away and some may have returned.

"The common people do not distinguish between Japanese, American, English and German nationalities, but all alike are foreign and obnoxious. We cannot but fear that outrages such as have just recently transpired at Cheng-Tu, in the northwest interior, will occur in other localities where foreign missionaries are residing, far away from the treaty ports and hence beyond the protection of foreign gunboats."

"The people and the officials of the Fukien province have been the most friendly in the whole territory, and this massacre was surprising to all familiar with the country. An article printed in the North China Herald of July 5 is as follows: 'At Cheng-Tu the officials who have more than an adequate force at their disposal, made no serious attempt to stop the destruction of the missionaries, for the idea seemed to be to have them driven out, but not killed. The chief of police at Cheng-Tu issued the following proclamation on the second day of the riots: "At the present time we have ample evidence that foreigners

deceive and kidnap small children.

You soldiers and police must not be disturbed and hurried. When the cases are brought before us, we certainly will not be lenient with them."

WILL SEND NO FORCES.

WASHINGTON, Aug. 5.—The statement of United States Minister Denby and Consul-General Jenning that no Americans were injured in the attack by the Chinese mob upon missions at Fu-Chang has relieved the Naval Department of ordering naval forces to the scene of the trouble, although the trouble will undoubtedly form another subject for a demand upon the Chinese government for reparation and indemnity for outrages upon the property rights of American missionaries.

The nearest American ship is the Detroit, which arrived at Shanghai on Saturday, but the only manner in which her force could operate would be by means of armed launches. This is a most perilous method of campaigning under such conditions as exist in the interior of China, and the Acting Secretary McAdoo is willing to give the order if requested to do so by the State Department officials, experienced naval officers are found who believe it would be a useless sacrifice of the lives of our seamen.

THE COLUMBIA.

(REGULAR ASSOCIATED PRESS REPORT.)

WASHINGTON, Aug. 5.—The official report of Capt. Sumner, commander of the Columbia upon the speed test of that vessel on the run across the Atlantic reached the Navy Department today, and is mainly an elaboration of the succinct statements of the voyage made by the captain when he arrived at New York. He says that he made the run in 6 days 23 hrs. and 49 min. The quantity of coal on board at the time of departure was 1561½ tons, of which 1474 tons and 1180 pounds were consumed; the draught forward was 26 ft. 3 in. and aft 25 ft. 6 in. Capt. Sumner says:

"It was not deemed practicable to make the last twenty-four hours' run under forced draught because of the unreliability of the boilers, (we were blowing out tubes at the rate of 140 pounds). The loose state of the boilers from the examination of the fatigue of the crew, and, above all, the impracticability of getting a coal supply to the boilers with sufficient rapidity from where the coal was located at this stage of the run, were the reasons. The run has involved excessive labor on the part of most of the ship's company, for we had twelve volunteers from deck on duty in the fire-rooms for the whole run and forty-eight more men from deck have been employed below for some days past in supplying the lower bunkers with coal from the wing passages."

The experience of the Columbia in her ocean race against time has served to direct the attention of the engineer officers to the pressing need for a radical change in the present system of arranging the coal in the ship's company, for we had twelve volunteers from deck on duty in the fire-rooms for the whole run and forty-eight more men from deck have been employed below for some days past in supplying the lower bunkers with coal from the wing passages."

This is particularly true of bunkers when empty, for they are generally arranged in groups communicating with one another by small doors and the firemen must dig the coal through several bunkers to get it to the

SHOULD CLAIM GOLD

A WILD MANIFESTO ISSUED TO OLD SOLDIERS

The Pensioners Are Urged to Refuse "Depreciated Currency" for Their Checks

The Authorship of the "Dodger" is Unknown—May be a Part of Sovereign's Boycott.

Silver Men Finding Comfort in the Cause Fanned by the Bank of France—Ex-Gov. Porter on the Currency Issue.

(REGULAR ASSOCIATED PRESS REPORT.)

TOPEKA (Kan.), Aug. 5.—The following circular was distributed among the old soldiers of Topeka and Shawnee counties who today visited the United States Pension office to draw their quarterly allowance from the government:

"Comrades: Halt! You are entitled to gold in payment of your checks. Demand it. Do not accept depreciated currency."

The pensioners are paid by checks, which are cashed at the Topeka banks. This circular was evidently prepared by a bimetalist who wants to show that there is not enough gold in the banks to pay the pensioners, aside from doing the other business of the country.

It has also been suggested that this may be part of the Sovereign boycott of national bank notes, of which the authorship is not known.

Over five hundred pension checks were paid by the Bank of Topeka today, only two men asking for gold. One was a customer and was given the yellow metal. The other was somewhat insolent and was told to get out of the bank.

President J. R. Mulvaney of the Bank of Topeka said: "We generally pay most of the pensioners in gold, as it is more convenient when we are rushed, but this circular which was distributed among the pensioners is a libel. We do not charge these veterans anything for collecting their money. The government does not keep any money deposited with us, so your circular should be sent out telling them to demand gold."

FINDING HOPE IN FRANCE.

DENVER, Aug. 5.—A special to the Times from New York says that silver men are laying a good deal of stress on the fact that the Bank of France today issued statements showing a steady decline in its gold holdings, and a steady increase of silver holdings. It is noted that as the Bank of France declines to accumulate gold it lets its silver holdings decline; now the reverse process is going on.

It is also noted that the bank's movements in the past have been generally in advance of other nations. The fact that silver is being used by \$800,000, while gold has been steadily hoarded, gives the silver men a boldness. They do not charge these veterans anything for collecting their money. The government does not keep any money deposited with us, so your circular should be sent out telling them to demand gold."

"SILVER DICK'S" TRICK.

KANSAS CITY, Aug. 5.—A special to the Star from New York says that this morning to lead the forces and frame resolutions to be adopted by the Democratic silver convention tomorrow, Barring, Senator Cockfield, who lives here, Bland is the only star attraction on the ground. Bland had not been there an hour before he was out in an emphatic fashion, and he was surrounded by a large number of his friends.

The time had arrived when silver men should assume control of the party machinery. For publication he refused to talk, but his statement of his declaration was correct. This declaration is taken to mean that he proposed to try to oust the old committee and secure a new committee favorable to the white man.

The State Central Committee will meet in the morning to decide upon temporary organization of the convention, which will meet at the Hotel McAlister. The committee will probably name Bland for temporary chairman, although James Gibson of Kansas City, M. E. Benton and J. W. Farris of Laclede are also mentioned. Gov. Stone, it is believed, can have the permanent chairmanship if he wants it.

A new scheme was developed today whereby silver men intend to secure the State machinery and make sure of the central committee. The plan is to let the present committee remain and elect the new members from the State Central committee, and three from the State at large, making a committee of thirty-four members, instead of sixteen as now.

The silver convention will be called to order at noon tomorrow. That the convention will declare for the free and unlimited coinage of silver admits no doubt. The only question is of importance: Will the convention oppose the State Central Committee? Congressman Bland has been working hard to accomplish such a purpose all the afternoon, and until midnight Senator Cockfield, Gov. Stone, Congressman de Armond and a dozen other prominent Democrats have been working to defeat such an extreme measure. From tonight on, the night a compromise will be effected. The silver men are in a majority so overwhelming that opposition to any compromise that they favor will be the height of folly tonight.

EX-GOV. PORTER'S VIEWS.

NEW YORK, Aug. 5.—Ex-Gov. Albert G. Porter of Indiana is at the Fifth Avenue Hotel. Porter has just returned from a three-month trip up the Atlantic Coast in search of health. Among other things he said in an interview:

"Taking Indiana, or in fact taking all the Western States as a unit, I do not doubt that they are predisposed to an expansion of the currency, or rather, I should say that they are predisposed to the expansion of the currency. That is a peculiar fact in connection with the business depression, that the public, as a rule, is in favor of increasing the currency so that everybody can have money. As times get better this feeling dies out and I hardly think that the free-silver agitation will prove so much of a factor in the next national election."

In reply to a question regarding the reports that Gov. McAlister is a possible candidate for the nomination on the Democratic ticket next year and would receive the Indiana delegation's support he said: "I think it is probable that he will receive the support of the State delegation in the convention. He is popular and has been prudent."

PORTER WITH CAMP MEETING.

FORT WORTH (Tex.), Aug. 5.—The proceedings at the State camp meeting of the People's party of Texas opened here today with an attendance of several thousand people. There is a movement on foot for a fusion with the free-silver Democrats, who are in session here at the same time.

Secretary Herbert at Gray Gables.

BUZZARD'S BAY (Mass.), Aug. 5.—Secretary of the Navy Herbert arrived here this afternoon. The President was at the station to meet him, and they immediately drove to Gray Gables, where the Secretary of the Navy will remain as a guest for several days.

MRS. TALMAGE DEAD.

Never Recovered from the Shock of the Tuberculosis Epidemic.

DANSVILLE (N. Y.), Aug. 5.—Mrs. T. Deyrick Talmage died here at 5:30 o'clock today.

Since the burning of the Brooklyn Tabernacle last year, Mrs. Talmage has suffered from nervous prostration and has never fully recovered from the shock. The fire broke out while the doctors and nurses were attending to her. She was taken to the hospital, but she died there.

Silver Men Finding Comfort in the Cause Fanned by the Bank of France—Ex-Gov. Porter on the Currency Issue.

(REGULAR ASSOCIATED PRESS REPORT.)

TOPEKA (Kan.), Aug. 5.—The following circular was distributed among the old soldiers of Topeka and Shawnee counties who today visited the United States Pension office to draw their quarterly allowance from the government:

"Comrades: Halt! You are entitled to gold in payment of your checks. Demand it. Do not accept depreciated currency."

The pensioners are paid by checks, which are cashed at the Topeka banks. This circular was evidently prepared by a bimetalist who wants to show that there is not enough gold in the banks to pay the pensioners, aside from doing the other business of the country.

It has also been suggested that this may be part of the Sovereign boycott of national bank notes, of which the authorship is not known.

Over five hundred pension checks were paid by the Bank of Topeka today, only two men asking for gold. One was a customer and was given the yellow metal. The other was somewhat insolent and was told to get out of the bank.

President J. R. Mulvaney of the Bank of Topeka said: "We generally pay most of the pensioners in gold, as it is more convenient when we are rushed, but this circular which was distributed among the pensioners is a libel. We do not charge these veterans anything for collecting their money. The government does not keep any money deposited with us, so your circular should be sent out telling them to demand gold."

FINDING HOPE IN FRANCE.

DENVER, Aug. 5.—A special to the Times from New York says that silver men are laying a good deal of stress on the fact that the Bank of France today issued statements showing a steady decline in its gold holdings, and a steady increase of silver holdings. It is noted that as the Bank of France declines to accumulate gold it lets its silver holdings decline; now the reverse process is going on.

It is also noted that the bank's movements in the past have been generally in advance of other nations. The fact that silver is being used by \$800,000, while gold has been steadily hoarded, gives the silver men a boldness. They do not charge these veterans anything for collecting their money. The government does not keep any money deposited with us, so your circular should be sent out telling them to demand gold."

"SILVER DICK'S" TRICK.

KANSAS CITY, Aug. 5.—A special to the Star from New York says that this morning to lead the forces and frame resolutions to be adopted by the Democratic silver convention tomorrow, Barring, Senator Cockfield, who lives here, Bland is the only star attraction on the ground. Bland had not been there an hour before he was out in an emphatic fashion, and he was surrounded by a large number of his friends.

The time had arrived when silver men should assume control of the party machinery. For publication he refused to talk, but his statement of his declaration was correct. This declaration is taken to mean that he proposed to try to oust the old committee and secure a new committee favorable to the white man.

The State Central Committee will meet in the morning to decide upon temporary organization of the convention, which will meet at the Hotel McAlister. The committee will probably name Bland for temporary chairman, although James Gibson of Kansas City, M. E. Benton and J. W. Farris of Laclede are also mentioned. Gov. Stone, it is believed, can have the permanent chairmanship if he wants it.

A new scheme was developed today whereby silver men intend to secure the State machinery and make sure of the central committee. The plan is to let the present committee remain and elect the new members from the State Central committee, and three from the State at large, making a committee of thirty-four members, instead of sixteen as now.

The silver convention will be called to order at noon tomorrow. That the convention will declare for the free and unlimited coinage of silver admits no doubt. The only question is of importance: Will the convention oppose the State Central Committee? Congressman Bland has been working hard to accomplish such a purpose all the afternoon, and until midnight Senator Cockfield, Gov. Stone, Congressman de Armond and a dozen other prominent Democrats have been working to defeat such an extreme measure. From tonight on, the night a compromise will be effected. The silver men are in a majority so overwhelming that opposition to any compromise that they favor will be the height of folly tonight.

Cincinnati Firemen Have a Benefit—Bank Holiday Races—Walk-over for the Britannia—The Niagara a Winner—Baseball.

(REGULAR ASSOCIATED PRESS REPORT.)

NEWPORT (R. I.), Aug. 5.—The Defender and Vigilant sailed over a 254 mile course today from Cottage City to this port the race being an event in the cruising of the New York Yacht Club. The sea was smooth and the wind varied in velocity from ten to fifteen miles an hour. For twenty miles down to the Vineyard Sound lightship it was a beat to windward and the Defender beat the Vigilant by 5m. 46s. both yachts carrying club topsails and baby jib topsails.

In the stretch to Newport, with sheets eased a little, the Defender gained enough to make her elapsed time from start to finish 9m. 58s. better than the Vigilant. The Defender made every mile with working topsails only, and the Vigilant beat her 10m. 49s. The following is the official time:

Defender, start, 11h. 55m. 40s.; finish, 4m. 49s.; elapsed time, 4h. 30m. 58s. Vigilant, start, 11h. 55m. 24s.; finish, 4h. 30m. 43s.; elapsed time, 4h. 35m. 19s. Jubilee, start, 11h. 55m. 52s.; finish, 4h. 34m. 42s.; elapsed time, 4h. 38m. 50s.

In the first twenty miles of the race it was a beat to windward, and the Defender was five minutes ahead. The rest of the course was a close race. The Emerald was the first schooner in and the Constellation second.

OAKLEY RACES.

Cincinnati Firemen Have a Benefit—Everybody Pays.

(REGULAR ASSOCIATED PRESS REPORT.)

CINCINNATI, Aug. 5.—This was the last day of the Oakley races. It was an extra day given for the benefit of the local firemen's association. The attendance was very large, about seven thousand, and every one paid at the gate, including owners, officials and reporters. There were seven good races on the card, four of which were won by R. Isom.

Five furlongs: Motilla won, Willie Louis second, Marjorie third; time 1:02. Six furlongs: Willard won, Portugal second, Early Rose third; time 1:15. Five and a half furlongs: stretch won, Hippocrit second, Coshie third; time 1:09.

Congress Club handicap, one mile: Pepper won, Santa Maria second, Ray third; time 1:37. Six and a half furlongs: Pop Gray won, Domingo second, Jim Donlin third; time 1:23.

One mile and a sixteenth: Blue and Grey won, Santa second, Victorious third; time 1:45. Seven furlongs: Nance won, Elise second, Fabia third; time 1:27.

ROYAL LONDON YACHT CLUB.

Walkover for the Britannia—Race for Twenty-raters.

COWES, Aug. 5.—(By Atlantic Cable.) In the yacht of the Royal London Yacht Club today the Britannia had practically a walkover, the Alisa being absent under repairs, and the Hester being the only opposing yacht. The Hester is allowed 22m. 40s. by the Britannia.

In a race for twenty-raters, the Eucharist led at the start, followed by the Isolda, Niagara, Luna, Audrey, Veneta, and Stephanie. The Isolda, Luna, Veneta and Stephanie gave up the race, leaving the Niagara and Audrey to contest for the twenty-raters prize.

The Britannia finished at 2h. 55m. 45s. The twenty-raters finished at 3h. 5m. 45s.; Niagara, 3h. 52m. 50s.; Audrey, 3h. 5m. 45s.

DOES MINNIE LIVE?

A TENNESSEE REVELATION IN HOLMES'S CASE.

One of the Williams Sisters Is Reported as Confined in an Asylum.

She is Found Wandering Along the Highway with a Babe in Her Arms.

A Mysterious Inquiry as to Miss Clarendon—A Photograph of the Missing Girl Was Mailed to Her Surprised Parents.

(REGULAR ASSOCIATED PRESS REPORT.)

MEMPHIS (Tenn.), Aug. 5.—Following a confession on the revelation that Connelley, alias "Nascot," now in the Arkansas penitentiary, is a native of Tennessee; that he has committed several depredations in this part of the State and enjoyed the hospitality of the Tennessee penitentiary for a series of years came a story that Minnie Williams is alive and an inmate of the Shelby county poor and insane asylum where she is known as Mrs. Eunice Rosenberg.

On March 24, 1894, a woman was found wandering along the highway at Idlewild, a suburb of Memphis, carrying a young babe not more than three weeks old in her arms. She was arrested and taken to jail and later to the asylum. There has been absolutely no clue to her identity or her former history without this one. Although the story has been published about her all over the United States not one inquiry has come for her.

The description of Minnie Williams as to her height, weight and general appearance tallies with that of the young woman at the asylum and her dropping her unannounced is some ground for believing her to be the same.

CHICAGO, Aug. 5.—Human blood was found today in Holmes's "castle," be-spattered from one room to another. Science aided Detectives Fitzpatrick and Norton where other agents had failed and uncovered more startling evidence against H. H. Holmes and Pat Quinlan than has been found in the past.

There was found in the "castle" by the detectives and a medicine expert a trail of blood leading from the doorway of the dining-room of Mrs. Julia L. Conner to a sink in the same room; from there into the dark chamber, where she and her former stepson, when she and her former stepson were in the room, where the secret trap-door was; on the baseboard of that room above the trap-door and down on to the secret staircase which led to the false elevator shaft and thence into the basement. The blood was human.

A clot of blood mixed with human hair was found. Also from the debris in the dark chamber where the mother and child slept there was taken some child's underclothes stained with blood, a pair of brown trousers stained at the bottom with blood; a handkerchief which had been used to wipe up blood with and various clothes and parts of underclothing spotted with blood.

These articles were examined microscopically at the time of their discovery and a test made then and there as to the stains and blotches showed it to be human blood. With but one or two exceptions the expert decided that they were all marked with human blood. A rope was found in the dark chamber and in its knots blood was discovered.

In Pat Quinlan's private living rooms were found two trunks. On both trunks were the initials "M. R. W." The initials had been painted over. They are those of Minnie R. Williams. Chief Badenoch believes this evidence to be the most important of any save the partial confession of Mr. and Mrs. Quinlan that he has yet secured.

A MYSTERIOUS INQUIRY.

ANDERSON (Ind.), Aug. 5.—The father of Emily Cigrand, the young woman believed to have been one of Holmes's victims, today received a letter from Philadelphia, signed O. L. Forrest Perry, inquiring whether Phyllis Cigrand had her picture taken with Emily on the left of the small picture and what date it was taken, and where the picture was inclosed in a letter and Cigrand identified it as a fac simile of the photograph in the Chicago family album.

The letter was written on a Fidelity Mutual Life Assurance letter-head. The name of Perry does not appear in the list of officers and directors of the Fidelity Mutual Life Assurance company. Perry got the picture. They take it as evidence that Emily Cigrand was heavily insured. A private dispatch from Philadelphia this afternoon, however, says that the name of Emily Cigrand is not on the books of the Fidelity Mutual Life Assurance.

FRESH PERSECUTIONS.

The Condition of Armenians Worse Than Ever—Shakir Pasha.

(REGULAR ASSOCIATED PRESS REPORT.)

LOAN, Aug. 5.—(By Atlantic Cable.) The Daily News has advised dated Armenia, July 29, which says that the condition of the Armenians is worse than ever. They regard Shakir Pasha as their worst enemy, and his appointment as a contemptuous defiance of the Armenians.

There is nothing to be done about the matter," said President Gage, "further than that the bank has made losses and accumulated debts which which it has now to stop the currency off in this sweeping way. We might have worried along and brought out all of these assets, so that no one would have been hurt. If we are able to do that it will simply go into the profits as we realize them."

INDIAN OUTRAGES.

A White Girl Ravished and a Prominent Cattlemen Robbed.

(REGULAR ASSOCIATED PRESS REPORT.)

CHECOTAH (I. T.), Aug. 5.—Yesterday afternoon near Okmulgee, Okla., four Indians and a negro, all unknown, ravished a white girl in the presence of her father, who was covered with a Winchester.

A short time afterward the same bandits met Benton Callahan, a prominent Creek citizen and cattlemen, who was accompanied by Sam Houston, a negro employee, whom they held up and robbed of money, saddles and boots, after which they shot Houston through the shoulder, killed his horse and beat Callahan unmercifully with their guns. Indian citizens and white men are after these outlaws, and if captured the result can be guessed.

MEXICAN CANALS.

The Government Giving Much Attention to Its Waterways.

(REGULAR ASSOCIATED PRESS REPORT.)

CITY OF MEXICO, Aug. 5.—Mal Scogon, an irrigation engineer who has been in the employ of the British government in India, will immediately begin work on the Temporal River near Tampico to enable steamers to ascend the Temporal River to the town of Tempico. He will also, in conjunction with Correll, who is the consulting engineer of the Tampico jetties, excavate a 600-kilometer channel from the upper Rio Grande. Scogon will also be in charge of the canal project from Tampico to Tuxpan through Lake Timahu.

A concession has been granted for a canal to connect the lake on the west end of the Isthmus of Tehuantepec, the canal to run parallel with the coast. The new waterway will be nearly four hundred miles long and will extend into Guatemala. The Mexican government is giving much attention to extending its various waterways so as to develop inland navigation. Gen. John B. Friese of this city, formerly of California, has just received a concession for an electric railway from Jalapa on the Isthmus of Tehuantepec, through the Vera Cruz railway passage, through an extensive coffee and fruit country. This road will facilitate the outlet for the enormous coffee crop of that locality. Survey and construction will begin immediately. George Topham has the engineering in charge. This is the first electric railway projected in the republic.

Americans here who are interested in pugilism will endeavor to have the Corbett-Fitzsimmons fight held here near the headquarters of the Federal district. Public opinion is hostile.

Five Dead Insurgents and as Many Wounded Are Left on the Field of Battle—Two Other Minor Engagements.

(REGULAR ASSOCIATED PRESS REPORT.)

HAVANA, Aug. 5.—Lieut. Col. Molina, at the head of a force of auxiliary troops, had a skirmish today with insurgents, commanded by the well-known leader Matias Sabana Torres, near Rosario Vieja, province of Santa Clara, and dispersed them. The insurgents left five dead and had many wounded. Among the killed was Supl. Jose Reyes Cadena, whose body was fully identified. On the side of the troops one corporal and one guerrilla were seriously wounded.

MIDSUMMER NUMBER OF THE TIMES.

On the 15th of August The Times will issue a unique special Midsummer Number, describing Los Angeles and Southern California in the season of utmost warmth, and under the highest conditions of vegetable growth and fruit production.

It will be a number redolent of summer and breathing of the fruits, flowers and grains that grow in our prolific soil.

This issue will differ in essential particulars from any before issued by The Times. The peculiar charms of the country—charms which never fade, but grow brighter with the passing years—will be set forth with fidelity, and our aim will be to make the number as valuable in its contents as it will be attractive in letter-press and illustrations.

It will be a triple sheet of 36 pages, and in its contents will be embraced adequate and accurate descriptions of the towns and cities of the south, with records of progress in each.

The seaside and mountain resorts will receive particular attention, with the especial object of showing strangers what summer life in Southern California actually is.

City, village, suburban and country homes will be pictured and described for the benefit of distant readers and intending residents.

"How Things Grow" is a subject which will be fully treated and reliably portrayed.

A volume of up-to-date information about the country will be given, and many new topics will be exploited, and old ones newly treated.

The commercial, business and building progress of the city and country will be shown.

There will be a special and elaborate account of the important oil development in this city, with a trustworthy description of the numerous openings for the application of enterprise and the investment of capital.

Other interesting features of the southern country will be presented in the Midsummer Number. We guarantee a fine issue, a numerous edition, and one of the best of the many creditable papers for which The Times office is notable.

A more specific and detailed list of contents will be found in another part of this issue.

Debs announces (from jail) that the A. R. U. still lives, and that when his sentence has been served out, which will be on November 22, the order will be reorganized, or words to that effect. Of course Debs will feel that he must make an appearance of doing something to earn his salary, hence he will doubtless endeavor to stir up strife between employers and employed somewhere. But his proposed "reorganization" of the A. R. U. does not promise to be a howling success.

A peculiarly gratifying story comes from France. The hero of the story was an Anarchist named Decoux, and was blown to pieces by one of his own bombs. It was a most excellent end.

Those plotters against the Dole government would better take a second thought before they attempt to capture the Dole government. It was a most excellent end.

TRIED AND FOUND WANTING.

The Bureau of Statistics of the State Department has just issued advance sheets of the statement of foreign trade for the first quarter of the current year. The figures show a large increase of imports, chiefly in manufactured goods. The increase in imports from France is especially large, aggregating \$6,425,768, the total of imports from that country for the quarter being \$17,674,697. From Germany, also, there was a large increase of imports, aggregating nearly \$7,000,000 for the quarter out of a total of some \$20,000,000.

These imports of manufactured goods are sold in our markets in direct competition with goods manufactured by American labor. They therefore take from American workmen the labor which they would otherwise be required to perform in order to supply the demands of home consumption. There has been no corresponding increase in exports of American manufactures. On the contrary, our exports have decreased, since the present tariff went into operation eleven months ago, by about \$80,000,000. Dwindling exports and increasing imports are alike unfavorable to American enterprise and American labor.

When the Democratic party was asking to be intrusted with power in 1892 it promised, among numerous other things, that if placed in control of affairs it would so readjust our trade relations with foreign countries that our exports would be vastly increased, and this increase of exports to "the markets of the world" was to bring great prosperity to the entire nation. It was urged, in pursuance of the Cobden theory, that in order to induce foreigners to buy our goods in increasing quantities we must buy more foreign goods. Protection was denounced as "robbery," "class legislation," "taxation of the few for the benefit of the many," etc., etc. Free trade was put forward as the sine qua non of industrial advancement, and the overthrow of the Republican protective system was demanded.

Enough voters among the American people were deluded by these sophistries to give the political victory to the party of free trade. It was a victory won upon false pretenses, and in the nature of things the victors could not have reasonably expected their lease of power to be other than brief. How have their many plausible promises been fulfilled? Where is the wonderful prosperity which they predicted? Since the Democratic party came into power the country has experienced one of the worst periods of industrial, commercial and financial depression in its history. And those "markets of the world"—the ignis fatuus of the free-trader—are gradually slipping away from us, while we are buying more and more of the products of the foreigner, and paying for the same in gold instead of in merchandise.

Besides all this we have been forced to borrow \$155,000,000 in gold to maintain our national credit and pay current expenses. Government receipts are still running far behind expenditures, the deficit for the month of July being more than \$9,000,000. Did ever a party make a worse failure in the art of governing than the Democratic party has made since Mr. Cleveland entered the White House in 1893? Failure and disgrace are written all over its record in ineffaceable letters. It will be a long time before the American people will again intrust the management of public affairs to this party of pretenders, theorists and incompetents.

By placing all available officers on guard, many of them in citizens' garb, the New York police authorities are managing to restrict the open sale of liquor and beer on Sundays. They admit, however, that many saloons sell drinks behind closed doors, and under conditions which virtually preclude detection. "Social clubs" are also being organized, and numerous "ways that are dark" are resorted to to evade the Sunday law. It is evident that there is an inordinate demand for Sunday drinks in New York, and that this demand will be supplied in some way, notwithstanding the vigilance of the police. It is human nature to desire that which is forbidden.

Unless this reckless slaughter of foreigners in China is put a stop to forthwith the civilized nations of the earth will have to take the "heathen Chinese" in hand and teach him a lesson which he will not soon forget. Reports of outrages and murders in China are becoming altogether too common, and the unspeakable Chinaman needs some wholesome discipline as well as the unspeakable Turk.

Among the pleasures of Sunday last in New York were several severe thunderstorms, accompanied by winds blowing at the rate of sixty miles an hour. Numerous fatalities resulted.

Boats were capsized, three persons losing their lives in one instance and two in another. A trolley-car was struck by lightning and half a dozen persons were injured. Can it be that the "cyclone belt" is moving eastward, and that the edge of it has reached Manhattan Island?

The origin of the word "jingo," now so freely used on both sides of the Atlantic, is thus related by a correspondent of the Boston Herald:

"Some years ago, at the time of the Turkish atrocities in Bulgaria (so vividly described and so vigorously reprobated by Mr. Gladstone), the admissibility of English intervention was agitated by a large war party, whose members were of all shades of political opinion and joined forces only on this one point. There is no public question in England that does not sooner or later get into the songs in the music halls, and so one of the most popular singers of the day wrote a ditty, with these lines for a chorus:

"We don't want to fight, but by jingo if we do,
We'll go to the men, we'll go to the ships, we'll go to the money, too!"

"This song was received by the patrons of the music halls with every demonstration of enthusiasm, and the refrain quickly found its way into the newspapers. An anti-interventionist journal one morning contemptuously referred editorially to the extremists as 'jingoes.' The word was not long afterward heard on the floor of the House of Commons, and quickly thereafter took its place in the popular vocabulary, being presently simplified into 'jingoos.'"

As usual, the newspapers of the extreme East are talking glibly about "the rights of the noble red man," and are condemning everybody excepting the Indians connected with the recent trouble in Idaho and Wyoming, whom they regard as having been "greatly wronged." It is a noticeable fact that the farther a person lives from an Indian reservation the more exalted are his ideas of Indian character. The noble red man is all well enough in poetry and fiction, but he doesn't pan out very well, as a general proposition, upon close acquaintance. Those who know him best see no reason to revise the pithy saying that the only really good Indian is a dead Indian.

The Boston Herald well and truly observes: "Democrats who feel it their duty to defend the present tariff are between two fires. If they praise it, they are praising what Cleveland called an act of 'perfidy and dishonor,' and a deficit-making tariff, which would be ten times worse but for the Republican duties it preserves. Yet they must praise it to try to make the Republicans think the tariff should not be made the issue of the next campaign." But the tariff will be the issue, just the same. The "act of perfidy and dishonor" is not by any means a finality.

The important question as to whether an artificial leg attached to its owner is subject to duty has been officially determined by the Treasury Department. A collector of customs at Ogdensburg, N. Y., assessed such a member, coming into the United States from Canada, \$15 as a "manufactured article." But he was overruled, upon the appeal of the owner of the leg, and the useful member was admitted free.

Although Senator Puffer of Kansas is without honor as a prophet, either in his own country or elsewhere, he occasionally tells the truth. He did so the other day in an interview when he declared that the silver agitation is dying out, and that when election day comes around the free-coinage agitators will be heavily sat down upon. It is even so.

Philadelphia is to be Lexowed, and some of the municipal politicians and office-holders are quaking in their boots.

SMILES.

(Life) The Poet: Have you read my last poem? She: No. Only your first. (Detroit Free Press) Butcher: Will you have a round steak, miss? Young Housekeeper: O, I don't care what shape it's in just so it's tender.

(Tid Bits) Burglar (just acquitted, to his counsel): I will shortly call and see you at your office, sir. Very good; but in the daytime, please.

(Life) She Had Studied French. "Have you any non-vivants this morning?" Butcher: Bored what, non-vivants? Why, that's French for "good liver."

(Familiar) A Useful Precaution. A. Why do you always prefix the word "dictated" to your letters? B. I see you don't keep a typewriter. No, but I am rather deficient in spelling.

(Harper's Bazar) "Why do you and Bobby quarrel so much? I hope my little brother will be a success. No, mamma! I'm not selfish, but Bobby is. He always wants to play the games I don't want to."

(Harper's Bazar) Mrs. Skim. Do your boarders pay promptly? Mrs. Skim. They don't at first. Mrs. Skim. Why don't you? Mrs. Skim. They've got so fat they can't get their hands in their pockets.

(Boston Transcript) Brown. But why do you stop so often? Can't you keep up with me? Typewriter (who is rather shaky in her orthography). O, yes; but your language is so eloquent, I frequently find myself spell-bound.

(Indianapolis Journal) She. What made you so late coming home night before last? He. Humph! You have been a long time remembering to ask me. She. Yes, I thought I would give you time enough to get up a good excuse.

(Boston Post) Son. Father, is the position of Senator higher than that of Congressman? Father. It comes higher, my boy.

(Puck) Pastor. It would surprise you to know how much counterfeit money we receive in the contribution boxes in the course of a year. Thoughtless Friend. I suppose so. How do you manage to work it all off?

Bardadale's Boast.

In 1801 iron railroads were laid in several parts of England, superseding the wooden trackways.

AT THE PLAYHOUSES.

ORPHEUM.—The usual smashing big house was in attendance at the Orpheum last night to welcome the bright people of the week's bill, which is unusually attractive. Indeed, that hasn't a dull feature in it.

Bartlett, the boneless wonder, begins the trouble this week and ties himself in knots and winds himself up in his marvelous legs with his usual dexterity, being assisted by his merry assistant, Miss May. Maud Harris, a newcomer, sings a number of new songs that are strictly up-to-date and does it so well as to gain several recalls. She has the dash of the typical sourdough and is a lively feature of the programme. The Bland sisters are bright and winsome young women, one of them possessing a very unusual and rare soprano voice, having a contralto voice of depth and power; together they make a most attractive team.

Probably the most remarkable couple ever seen in the local theatre are Fraulein Kennedy and Herr Lorenz, who perform feats of thought transmittal, or whatever it may be termed, that are usually attributed to the lady. The blindfolded pair sit on the stage and without any other suggestion than the pointing of her associate's finger names articles offered by the audience, gives list of metal, denomination and date of coins, even though running into the millions; the numbers of railroad tickets; sings a very original and clever song, and performs her male assistant, and all this, mind you, without a word being spoken. It is a most uncanny and mystifying performance, and as novel as it is startling.

The Garretts, grotesque acrobats, appear in a most laughable skit called "Tubb's Visit," that is as a matter of merit as can be imagined. The brother and sister, who assume the character of Tubb, has a countenance that is full of humor, and he is past master in the art of comedy make-up. The brother, who is a juvenile, is full of tricks as Peck's boy, making a very excellent foil in the jolly work. The Muhlenberg trio of Tyrolean warblers do a number of folk songs and yodeling numbers in the most charming manner, concluding with the fine feats of the Savans, who are immensely clever, as was demonstrated last week. The brother and sister, who assume the character of Tubb, has a countenance that is full of humor, and he is past master in the art of comedy make-up.

BURBANK.—Miss Ethel Brandon, announced as a handsome, emotional actress, who is not unknown to the local theater-goers, appeared last evening at the Burbank Theater in a drama called "The Shadows of a Great City." The play is a description of the life of what is called in theatrical parlance "New York life," the plot being arranged upon the well-known melodramatic lines of heroism, villainy, sweet-girlism. An abundance of opportunity is afforded in the play, however, for strong acting, of the melodramatic and opportunity for the opportunity afforded is used to good advantage by Miss Brandon and the company supporting her. The role played by Miss Brandon is not a small one, and she is able to exercise the dramatic talent which she is undoubtedly possessed, her impersonation in the cast being that of a maiden of tender years, while Miss Brandon possesses the countenance and features of a mature woman. Her work, however, is conscientious and of character, and is an excellent bit of character work. The play is a description of the life of what is called in theatrical parlance "New York life," the plot being arranged upon the well-known melodramatic lines of heroism, villainy, sweet-girlism.

COMING ATTRACTION.—The coming attraction at the Los Angeles Theater is "The Case of Rebellious Susan," which Daniel Webster, the Los Angeles actor, will play here tomorrow night at the Los Angeles Theater. PITH OF THE COAST PRESS.

(San Francisco Call) It will be noted that the news of the Pacific Coast is nearly always of some enterprise completed or a new one begun, while that from the East is made up mainly of cloudbursts, or windstorms.

(Seattle Times) The shortage of the Kansas wheat crop is such that it is claimed that 7,000,000 bushels must be imported into the State this year. Arrangements are being made to secure to secure the grain from this State and from Russia.

(Chicago Enterprise) Baby Marion will begin her public career by touching the button that will start the machinery of the Atlanta Exposition in September, though of course she will not know what she is doing any more than her daddy does about statecraft.

The Times

ALL ALONG THE LINE.

The burning question of the day is just where to spend the precious two weeks that come as a joyous relief in the busy lives of wage-earners. Excited discussions are everywhere heard concerning the rival merits of sea and mountains, shooting and fishing, and every man goes forth with the firm determination to enjoy himself by killing something, if only old Father Time.

It might be a wise scheme for anxious parents who fondly gloat over the perfections of the half-risen generation to casually stroll around some of the public parks and great buildings during these charming summer evenings. Enough concentrated essence of foolishness is gathered around in these places where the really ones do congregate, to keep the foot-kicker busy employed for the next decade.

Southern California veterans are swarming into camp at Santa Monica just now in large and enthusiastic numbers. They have a beautiful spot, close to the line where the cooling breezes leave the sea, and under the protecting shade of towering trees. Prospects are that the largest encampment of veterans ever assembled in the State, barring only the national gathering at San Francisco some time ago, is now in tent at Santa Monica.

The true awfulness of Bellamy's coldly-perfect scheme of an ideal civilization never strikes one so forcibly as during a stroll along the beach. Bellamy's ideal rejects with scorn the useful umbrella as typical of segregated interests, and utterly at variance with the true communistic feeling. It is Communistic feeling has no place under the umbrellas that dot the yellow sands, and the way interests are there segregated into glistening pairs makes an interesting study for the casual observer.

The question asked by a timorous Councilman yesterday as to the expense involved in the overhauling of the plumbing apparatus in the City Hall, may indicate that economy—close-fisted economy—is to prevail in the management of the repairs so urgently demanded by the necessities of the case. It may not be out of place to suggest that "economy" is a secondary consideration in the matter. First, secure modern, up-to-date fixtures, then keep an eye open for possible extravagance in their construction.

Evidently San Diego county educators are preparing for the advent of the "new woman" in real earnest. The funny papers may joke all they please about women taking the places of men and men the places of women, yet it will not affect the serious view of the matter taken by City School Superintendent Eugene de Burn of the Silver Gate. He says he wishes to correct the report that no sewing was taught in the San Diego schools. Here are his words: "Sewing is taught in all classes in the primary and grammar grades. In the primary grades the boys are taught to sew on buttons, darn their own rents, etc." Shakes of Susan B. and the Rev. Dr. Anna Shaw, who wants to be a policeman! At this rate the small boy will next be trained in the art of minding the baby, doing the family washing and general housework. The girls may be instructed in currying horses and hoeing corn. The "new woman" is coming, sure.

Well, now, who'd ha' think it? That a problem which has convulsed all ages, torn up families by their roots, caused divorces without end, kept judges busy, steered worthy young men to smoke bad cigars and drink soda with a "sticker" in it, and been the unremitting and everlasting cause of the violation of every clause of the entire decalogue, should at last have been solved away down in youthful Arizona, passes all human comprehension. Here is the problem and the solution all in one. The fact originates in the Flagstaff (Ariz.) Sun, and the assumption is that the editor thereof knows whereof he speaks. He says: "A peculiar thing about Navajo marriages is that after the event the mother-in-law and son-in-law must never look each other in the face again." Now just to think that mothers-in-law and sons-in-law have been passing down through all these countless ages without knowing how they could fix things up and make households happy, makes the average man of today tear around loose and use the crudest kind of cuss words, when all he had to do was to go over to Navajo and find out how they did those things there. Now let's sing the jubilee.

About \$15,000. A hard money went into the landlords' pockets this month, and every month the same thing over again. Don't you get tired paying rent? I wonder how we have a nice five-room house near Arcade Depot, \$1000, at \$20 a month. Cozy four-room cottage, Fin. 900, at \$10 a month. Cheap neat little house, three rooms, fine lot, Twenty-eight near Maple, \$600, at \$15 a month. Do you want the lot or only a small portion? We've got both, fenced, and a few acres of the moon. IN MURDERERS' ROW.

GIOVANNI CARRAZZI NOW IN THE COUNTY JAIL.

Held for Trial Without Bail—in Moral Terror of Being Hanged—The Noose is Tightening Around His Neck—The Damaging Testimony Against Him.

Through the action of Justice Owens's court Giovanni Carrazzi now occupies a cell in the murderer's row in the County Jail, Justice Owens having held him to answer for the murder of Roy Kenner, without bail.

The examination occupied the entire day in the court, with the exception of a half hour's interlude for Police-Court business. Carrazzi had for counsel R. A. Ling, while Deputy Dist. Atty. Willis represented the people. Deputy Constable Joe Mugnani, who is a master of the Italian lingo, acted as interpreter.

The prosecution had eighteen witnesses present, but only used eleven, one of the most important of whom was Mrs. Capasso, sister of the accused.

Mrs. Capasso's evidence, although given reluctantly, was in itself enough to warrant the court in holding the prisoner for trial. She testified that on the day of the tragedy, Carrazzi came into her house in great haste, telling her he had fought with "the nigger," meaning Kenner, the colored blacksmith, and was going to take his money and leave the country. She told him that if he simply had a fight, it would be better for him to remain and face the court, but he exclaimed: "Yes, but I fought him with a knife!"

He then went to his trunk, took out what money he had in it and ran away. Carrazzi has all along maintained that he did not participate in the fight, having simply run away in order to avoid arrest on suspicion. His own sister's evidence, however, will no doubt have great weight with a jury.

Another sensational witness was Joe Rivera, who has not heretofore figured in the case. He testified that he saw Carrazzi strike the fatal blow. Attorney Ling tried hard to get this witness to contradict himself, but could not do it. With the testimony of these two important witnesses, the noose is pretty sure to draw around Carrazzi's neck.

The defense put in no evidence at the preliminary examination, reserving their ammunition for the trial. As soon as Justice Owens announced his intention to hold the prisoner, he was removed to the County Jail, making the seventh man now confined there for the crime of murder. The others are: Craig and Thompson, under sentence of death, pending appeal; Wong Chuey, convicted of the murder of Lucy Suey and sentenced for life; F. B. Kenner, the slayer of Detective Lawson; F. B. Erickson, the slayer of Herbert E. Jones; and Frank Roome, the Downey murderer, all awaiting trial. Carrazzi is the seventh and most ill-favored of the lot.

On the way to the County Jail, Carrazzi said to Detective Goodman: "Do you think they hang me?" The detective replied that he did not know. Carrazzi then said: "Me no care what they do, if they don't hang me."

There is little doubt that Carrazzi would plead guilty and throw himself on the mercy of the court, if he had any assurance that the death penalty would not be inflicted upon him. He appears to be in mortal terror of being hanged.

Acting on instructions from Chief of Police Glass, Detective Goodman has devoted a great deal of time to collecting evidence to bring the murderer of Roy Kenner to justice, and such a chain has been forged around Carrazzi that nothing short of a miscarriage of justice can prevent his conviction.

TO BURY THE FISH.

The Situation at the Nigger Slough Growing Worse.

Joseph Gillespie and F. J. Matts of Gardena appeared before the Board of Supervisors yesterday and were heard in regard to the dead fish which during the past few days have collected in great quantities on the shore of the "Nigger Slough" near Gardena.

The collections of dead fish were mentioned in an article in The Times recently, but at that time they were not as thick as they are at present. They were then giving out a terrible odor, but the increased quantities have made it so much worse that something will have to be done immediately.

It was stated that for a distance of a few hundred feet the fish were heaped up a number of inches deep and a number of feet high. After a general discussion of the question the board offered to appropriate one-half the expense of burying the fish if the residents of the slough and the neighborhood would bear the other half. They could attend to the work, keeping account of the time served and present a claim for pay for that time. This would leave it in shape so that the county would pay for one-half the work and the residents could present bills for the other half, they taking chances on getting their pay.

Mr. Gillespie and Mr. Matts were not empowered to make any agreement on the part of the people in the neighborhood of the slough and so no conclusion was arrived at as to what would be done.

The burying of the fish is a sickening job by reason of the overpowering odor which must be endured by those working at it. In order to stand this odor without vomiting it is necessary for the person working in it to keep camphor or some kind of smelling salts about his nose.

Two families living in the neighborhood of the slough have been compelled to move away by reason of the sickening smells, and it is stated that a number of other families will have to do so soon unless the situation in some manner be relieved. The odor seems to have a particularly trying effect on the women, a good many of them being nearly sick with it.

Pacific Gospel Union Reception.

The various churches interested in the Pacific Gospel Union united in a general reception to Superintendent C. S. Mason last evening. President S. I. Merrill presided. Rev. J. C. Webb gave a most excellent report of the past three months' work. W. D. Ball, general secretary Y.M.C.A., spoke in congratulating terms upon the return of Mr. Mason, who responded in an earnest address urging the workers to greater zeal than ever. Mr. Mason said, all things considered, the Los Angeles mission stands side by side with the foremost aggressive missions of the country. In one year—297 have professed salvation through Christ; \$22 have been clothed; 21,397 meals given in His name; four are now preaching the gospel; thirty-six in the churches; \$700 of indebtedness wiped out, and nearly every dollar of the current expenses met. The fact that for three months without the presence of the superintendent the work has gone on regularly, shows that it is a work permanently organized. Mr. Mason spoke of the enlarged work the mission would undertake in the near future.

Working Boys' Home.

The board of managers of the Working Boys' Home held their regular monthly meeting at the residence of Mrs. E. A. Forrester, yesterday morning. There was a good attendance; much interest was manifested, and the following new members were welcomed to the society: Thomas A. E. Watson, James Luckenbach, Mary Wickizer, and Charles Norton. The regular business was transacted, and reports were read by the treasurer, the financial secretary, the matron and the secretary. The home is doing better than it has been, but is still far from being satisfactory to those who have its welfare at heart. It is earnestly desired that every church in the city shall be represented in the society.

Police Court Notes.

In the Police Court yesterday the charge of disturbing the peace was placed against Thomas J. Stone and J. Murray, the young men who fought Saturday evening, and broke a show window of the Queen shoe store. Their trial was continued till Wednesday. William Morrell, who is charged with violating the Sunday closing ordinance and selling liquor without license, will also be tried Wednesday.

A Peripch was found guilty of carrying a concealed weapon, and will be sentenced today.

Jake Thomas was given a sentence of 30 or thirty days for indecent exposure.

Taken for Deportation.

United States Marshal N. A. Covarrubias and Court Crier Dominguez returned Sunday night from San Francisco, where they went with the two Chinamen named Ah Loy and Ah Fook, who had been sentenced to deportation. The two Mongolians appeared to be at odds, for they would have nothing to say with each other. They were put aboard the Pacific mail steamer "Peking," which is to take them to the Flowery Kingdom.

TRAINING WILD HORSES.

At Redondo Beach, next Sunday, the celebrated Fred Gleson and his assistants will give an exhibition of his marvelous power in training the wildest horses. It is the most interesting and at the same time most instructive performance to those who love horses or have anything to do with them.

ARIZONA NEWS.

A WESTERN MAN WANTED FOR THE PRESIDENCY.

An Aeronaut is Killed at Phoenix by a Fall from His Parachute.

Fast Dealings of an Arizona Horse—A Big Stake Decided by a Drawing Dice—Grave Shipments.

As the Consolidated Canal Company—Sectional War—Mexican Families—A Territorial Flower Emblem.

PHOENIX, Aug. 5.—(Regular Correspondence.) The New York World sent out queries to the chairman of Republican state committee as to whether they consider the candidacy of Gov. Morton of New York as serious. The question was propounded by wire to Judge Kibbey of this city. Judge Kibbey replied: "Without disparagement to Morton we prefer a Western man."

DEATH OF JUDGE ALEXANDER. Judge H. N. Alexander died here Thursday afternoon at 10 o'clock of heart failure. The deceased was the first Wells-Fargo agent in Los Angeles. He removed to Yuma in war times, remaining there till 1883. In 1872 he began the practice of law, and soon came eminent in his profession. He moved here in 1883, and was one of the leading attorneys in the Territory. He leaves a wife, three sons and two daughters. His son, J. B. Alexander, is clerk of the Supreme Court of Arizona, and his daughter is the wife of Chief Justice Baker. The body was taken to Los Angeles for interment, the funeral taking place there this afternoon at 2 o'clock.

EMBRYOTIC DAMAGE SUIT. An excursionist to California, Jay Dewey, reports that he has a damage suit in embryo. He went to California on a Southern Pacific excursion ticket, and was returning over the same road. The first conductor out of Los Angeles got a notion that Dewey was riding on a scalper's ticket and put him off. He returned by another road and promises trouble.

NEWSPAPER CHANGES. The projected Morning Review did not materialize. The Gazette has, however, again changed hands and policy, and that was probably the end desired by the proposed Review people. The Gazette was purchased by Auditor Leitch and others. J. O. Dunbar was again installed as editor. The Gazette is now pro-administration. The end of new dallies is not yet, however. The Arizona Democrat is being published in under way. Stock has been subscribed to the amount of \$20,000. One man took \$3000 worth. The new proposition includes two daily newspapers, machines and an afternoon United Press franchise.

ACCIDENTS TO AERONAUTS. Thursday afternoon a balloon ascension took place in which both of the aeronauts were injured. The day was not auspicious, but the crowd having gathered, wanted their money's worth. Bruke, one of the two, ascended at 5:30 o'clock. When only twenty feet high the parachute broke loose, owing probably to having been cut unintentionally by the man on the ground who held the ropes connecting the balloon and the parachute. He fell to the ground, severely bruised, and his companion, made a moonlight ascension at 7:30 o'clock, being unable to make ready sooner. The balloon rose well and he was making a fine display. When almost to the ground, a gust of wind carried the parachute, throwing the aeronaut aside to the roof of J. B. House. He struck with terrific force, was knocked senseless, and fell from the roof to the ground. He was removed to the hospital. His injuries were fatal and he suffered great agony. He died today at 2 o'clock.

AN ARIZONA HORSE. Zombro, a three-year-old trotter belonging to George Beckers, is receiving high honors in California. At Sacramento he ran away and broke the sulky especially by his lengthy action and high hocks. A smaller sulky was all that could be secured for the last race at the Agricultural Park. In this the colt rapped his injured horse against the sulky at every stride, yet held the lead in the last heat till fifty feet from the wire, coming in second by a neck to Steam B. In the time of 2:17.4. August 6 he will start in the 2:30 class at Vallejo, and on the 15th on the same track in the 2:24 class.

A BIG STAKE AT DICE. The two proprietors of the Union mine, a good property thirteen miles out, have been unable to agree on disposition of the property. One was the prospector who found it. He favored bonding the mine for \$7000. His partner, a merchant, favored disposing of the mine forthwith, he having an offer of \$5000. The two could not agree. The merchant then offered to shake dice for the ownership of the mine. The prospector agreed, and they repaired to Prince's saloon. They decided to shake Eastern dice; that is, three shakies, ace high, horses. The merchant threw first and secured four aces. The miner flatched three aces the first dash out of the box. The next one brought another ace while the third fell in, making five aces and winning the first horse. The miner followed with three aces, and three throws had found three aces, or just about an average hand. The merchant got three fives the first rattle, but the next two throws did not help, consequently he lost the second horse and the mine.

DIDN'T CLEAN OUT THE OFFICE. There was a bull-in-a-China-shop time at the Republican office yesterday. One Estabrook, a printer, made the racket, he being determined to clean out the office. He found Klingers, the job man, in, and proceeded to vent his wrath on that functionary of the Republican. Klingers gave him all the fight he wanted. Estabrook was arrested and fined \$5.

GRAPE SHIPMENTS OVER. C. H. Utting, the local agent for O. B. Jeffries, the California fruit-shipper, has closed the season as regards the shipment of grapes. The last consignment was a carload of muscat grapes, shipped from Tempe to Minneapolis, and a carload of Malagas from Glendale to Chicago.

THE CONSOLIDATED CANAL VICTORIOUS.

The much-litigated case of the Tempe Canal Company vs. the Consolidated Canal Company has been settled by the Supreme Court. The case is of two years' duration, and concerns the right of the Consolidated Canal to carry water to be used in transit for power purposes to the Tempe Canal. The Tempe Canal is entitled to 11,000 inches. The Consolidated, a newer canal, appropriates 40,000 inches, and through a branch canal can furnish the water for the Tempe Canal over a thirty-foot fall. In 1881 Dr. Chandler, manager of the Consolidated Canal, started to furnish water to the Tempe through the channel over the dam. This was stopped by a temporary injunction by Judge Lester. Later the injunction was made permanent. Now that the question is settled by the Supreme

Court the Consolidated Canal is insured the priority of right to carry for power purposes the water of the Tempe Canal, bound only by an obligation to do no damage to the lower canal in the transmission of water. The shareholders of the Tempe Canal are contemplating a further appeal.

A SECTARIAN WAR. A sectarian war is on between the Mexican families here because of religious matters. A family embraced the Methodist faith in response to the eloquence of a Spanish-speaking missionary of that faith. This was greatly to the horror of Senora Maria Flores and her son, who, for the backsliding from the Catholic faith, denounced them bitterly. This not bringing the sectarians to the fold, the owners of their well was removed by the faithful Maria and fifth enough deposited in the well to give the whole town typhoid fever. The family fleeing the water foul, suspected Senora Flores and had her arrested. She admitted that her son did it, and extenuated herself by the conduct of the owners of the well. The son was fined \$15, and his Honor gave the offenders a lecture.

PHOENIX BREVITIES. Judge H. C. Gooding, ex-Chief Justice of Arizona, expects to erect a fine business block on the corner of Adams and Center streets.

A special Pullman car will be sent to Boston to convey Arizona delegates to the Knights-Templars' convocation. It will attend from Phoenix and Prescott.

Business houses are advertising that they will contract for any or all of the fruit raised by farmers at fair prices. The new Hotel is rapidly approaching the third story. Already it shows a handsome building in prospect.

Settlers from Washington, North Dakota, Nebraska and Iowa have purchased land under one of the big canal and reservoir projects near here.

Monday morning the laying of steel for the cross-town line electric road will be started.

The mail service to Castle Creek has been increased from twice to three times a week.

Several stores here have under way a movement for closing all business houses at 7 o'clock each evening except Saturdays.

TUCSON.

TUCSON, Aug. 5.—(Regular Correspondence.) Rain fell here a night or two ago to the extent of half an inch. It did untold good.

The baseball club have begun practice for a series of games with the Williams-Flagstaff-Yavapai team. They will practice every evening. The club here has proposed that the games take place at Phoenix, as a half-way point, being neutral ground and with good gate receipts in prospect.

The smelter has thirty men employed in addition to those engaged in getting out ore.

The city council will in all probability take no action regarding the absence of Recorder Connel, pending the expiration of the two months allowed by law. No word has been received of the unfortunate man for the past several days. There is said to be about a dozen applicants for his position.

In July, 1884, ex-Gov. Stanford purchased Pima county warrants to the sum of \$1022. He gave them to his sister, Dr. Mary Safford of Boston, Mass.

Miss Safford died a year ago and the executor of her estate has sent the warrants to this city for collection. The interest is now \$117, or \$1250 for the whole lot. The warrants were included in the call for funding the indebtedness of the county, which is probable, they will be payable with interest.

TERRITORIAL FLOWER EMBLEM. A Prof. Fox of the East, has written the Governor asking the name of the flower used for the state emblem.

Prof. J. W. Toumey, botanist of the University of Arizona here, suggests, for such emblem, the evening primrose, or cerus grigill. The flower is one of the most remarkable in the world for beauty and fine odor, and a native of Arizona. It is in every way appropriate.

A circus will be here September 14. The Mexicans will thus get two holidays in one, that date being their Fourth of July.

INDIAN CATTLE THEFTS. As showing the ravages by the "self-supporting" Papago Indians on the ranges in this county, several cattlemen have furnished data of damages done by the Papagos. One firm put down the loss at 200 cows, some of them and then put out some 2000 head of stock. Recently they hunted up all the cattle to be found that bear their brand and although they had sold none yet, but about 400 head were all that could be got together, left out of five times as many. Another stated that he had put out 200 cows some time ago and at the last rodeo but 150 of them could be found, while all the increase he has ever had from them was three three and a half months out, for which he received pay. Still another man out of 1600 head of cattle can find but 92 head remaining, although he has been looking for them in the office of the Secretary of the Territory are now in preparation by Architect Heinlein in Phoenix.

PRESCOTT. PRESCOTT, Aug. 5.—(Regular Correspondence.) The city assessment roll, just completed, shows a total valuation of \$1,128,580, a gain of over \$150,000 over the previous year. The increase is largely due to the building improvements of the past year.

The latest shipment of screw worms in his nose, August Schmidt, a shoemaker, has succumbed to them. He died the middle of this week.

THE COUNTY CLASSIFICATION LAW SUSTAINED. The Supreme Court held a short session this week. The decision of great importance was that relating to the county classification act. The question involved was, "Can an enrolled bill, duly signed by the presiding officer of both houses of the Legislature, approved by the Governor, and deposited in the office of the Secretary of the Territory, be impeached by the journals of the Legislature or other purported evidence, as sought by appellant in this case?" Briefs had been submitted in the case by Dist. Atty. Jones of Graham county and Swain of Cochise, and Judge Kibbey of Phoenix. One effect of this law will be the cutting out of nearly every county official in the Territory, in many cases the cut being half the salary. So far as heard from none of the various county officials have resigned.

VESPER TIME AT THE MISSION.

Turnout and care are done, peace reigns instead. Cool shadows shroud the day's bright glare: The mission bells proclaim the hour of prayer.

And benediction falls upon my head. The mission bells proclaim the hour of prayer. The odor-laden breath pervades the air. As when a censer filled with spices rare, The solemn priest swings o'er the holy dead. The distant mountain's amethystine hue, Harmonious mingles with the tint above. And sweetly blend in one the sky and sod; And so the yearning soul with pulsing throat, Responds to nature's tender touch of love. And lo! this mortal man is one with God. —(C. J. S. CAMP FORT FISHER.

LARGE INCREASE OF ATTENDANCE OVER LAST YEAR.

Gathering of the Veterans from All Parts of Southern California—First Days' Delays Down by the Sea—A City of Tents.

SANTA MONICA, Aug. 5.—(Special Correspondence.) While life at Camp Fort Fisher was not officially begun, under military rules and discipline, until Tuesday morning, the park looks very much like a city already. All day today there has been the hum and confusion of arriving hosts, and baggage, camp equipment, stores and supplies have rolled in in a steady stream. Every train that arrives brings a host of veterans and their families. It is conservatively estimated that there are as many people already in camp as there was at the end of the first day a year ago, and it is enthusiastically claimed by the managers that this will be the largest encampment of California veterans ever assembled in the State.

The programme today was entirely informal, and wisely so as the event has proved, for the hours have been well crowded with the tasks incident to settling down for ten days of camp life and fun. To date Pasadena has the most numerous contingent, which is likely to so remain to the end. The headquarters of John F. Godfrey Post are located at the corner of Farragut avenue and Kearns street, and the tents of the tribe stretch away in either direction, occupying the whole of the latter street.

Pomona's contribution to camp numbers, with Vicksburg Post in the foreground, is numerous spread along Vicksburg avenue. This group is already an important one, and the later trains will considerably swell it yet today.

The Dan Bidwell Post from Norwalk is located on Sheridan avenue, and, unlike most of the other posts, it has spread a sufficient mess tent, and its members will take their rations ensemble.

Several other posts are already represented by headquarters, and others soon will be. The latter are in the chief entrance to the camp, and near its terminus to the left is the Fort Fisher Post tent. Opposite this, across the avenue, is the headquarters of Shiloh Post, Compton.

Stanton Post, Los Angeles, is next on the left, and beyond this near Lincoln Circle, is Sedgewick Post from Santa Ana. The latter is a handsomely decorated tent near the general headquarters, facing Lincoln Circle, which is the camp plaza for many of the local organizations.

Of the general officers of the association a large majority are already on the grounds. Those here are: Commander A. F. Ditt, San Diego; Major J. B. Summard, Patrick Calvert, Soldiers' Home; quartermaster, J. B. Summard, El Monte; surgeon, H. B. Woodward, San Diego; chief of staff, J. B. Kutz, Los Angeles; chief musician, A. J. Lenox, Los Angeles; administration counselors, John Brooker, O. T. Thomas, C. F. Munson, Los Angeles; J. M. Burton of Redlands, G. M. Farrington of Pomona, C. C. Brown of Pasadena, Joseph Sontag of Compton and R. R. Harris of Santa Monica.

Adj. George W. Fisher of San Diego is unavoidably detained at home, and Comrade Henry Roach of the same place has been appointed to the place. It will be sorrowfully missed by the veterans and citizens alike that the serious illness of his wife will prevent the attendance of Judge Advocate A. B. Campbell of the subject who is a universal popularity as a speaker a year ago.

The map of the encampment this year resembles that of 1914 in the patriotic names of its streets and avenues, many of the chief of which as in the case of Lincoln Circle, are the same now as then. The much larger attendance upon the encampment over that of a year ago already assured, adds much to the interest of the occasion already. As heretofore, bucksters of all kinds are barred. The whole camp is already ablaze with the colors of Old Glory, and the scene is a thoroughly animated one. The street railway service is frequent and good, and a camp car is already thronged with visitors.

CAMP NOTES.

Arrivals have been too plenty today for individual notation. The familiar faces of those in attendance a year ago are nearly all visible, together with many new ones. Santa Monica's popularity as a camping ground is well attested by the remarkable increase of numbers this summer over 1914.

Capt. G. M. Shaw, commander of Point Permia, is putting in a few days of his vacation in camp, where he is warmly welcomed by the old boys.

William Dusenberry, the "warring lion of the San Jacinto Mountains," blew in on an early breeze, and was promptly drummed out of camp for coming with his shoes untied, and Dusenberry is as essential to the success of an encampment as the bean kettle, and once arrived is about as numerous.

The San Francisco Club is early on the ground with a roomy headquarters tent. It faces Lincoln beach. The camp will be liberal reports, which is well received daily by the veterans.

A smooth and roomy dancing floor has been provided for the young folks, which includes everybody in camp and most of the visitors.

It is estimated that two hundred families were in tent on the grounds by noon today.

The big tent has been seated, and is ready for use. It will be tenacious, but few hours between this and breaking of camp.

Tuesday is Southern California day, and in charge of the camp general. No stated programme has as yet been announced.

PURLOINED CLOTHES.

Stolen Garments Recovered and the Thief Arrested.

About a week ago J. W. Murphy of Riverside came to Los Angeles on business, and being detained over night, he sought repose at a first street lodging-house. When morning came he found that some thief had entered his room during the night and made way with part of his wardrobe. His coat and vest were missing, but the burglar very considerably left him his shoes and trousers so that he could venture out on the street in search of an officer.

Murphy promptly reported his loss to the police and Detective Steele, the celebrated "pants" hawkshaw, was soon hot on the trail, although no "pants" had been stolen. The detective ran down the various second-hand clothing stores and pawnshops and soon succeeded in finding the stolen garments.

It remained for Detective Hawley, however, to catch the thief, who proved to be a man named N. L. Johnson. At last Johnson answers the description of the man wanted for the theft. The detective found him in an Alto-street lodging-house. He will probably be tried for burglary.

A SINGULAR DEATH.

Samuel Fansler Fatally Shot While Riding a Bicycle.

The coroner held an inquest yesterday afternoon at C. D. Howry's undertaking-rooms over the remains of Samuel Fansler, who met his death in a most singular manner.

Fansler was a native of Ohio, about 25 years old, and a resident of this county only about one month. He was employed as a laborer at the Chino beet-sugar factory. Last Saturday he and another young man, J. C. Goodrich, his cousin, rode to Los Angeles on bicycles to visit relatives. They stopped at the residence of Mrs. Caldwell, their cousin, on Twenty-first street.

Sunday afternoon, the young men left Mrs. Caldwell's house, and their wheels to return to Chino. Fansler strapped his own coat and Goodrich's to the handle-bar of his machine. Inside the coat was a revolver in its holster. Mrs. Caldwell cautioned him at the start to be careful of the revolver.

They went well till about 3:45 p.m., when near Shorb's station. There Goodrich, who was riding ahead, suddenly slowed up, and Fansler ran into him. The collision caused both wheels and men to come down in a heap, and in some unaccountable way the pistol inside the holster and coats was discharged, the bullet passing through Fansler's neck, entering on the front right side, passing through the vertebrae and lodging just under the skin at the back of the left shoulder.

Goodrich did what he could to staunch the flow of blood till assistance arrived and the wounded man was conveyed to the County Hospital, where he died about 4 o'clock Monday morning.

Fansler was conscious all the time, but could not use his arms or body, paralysis having resulted from injury to the spinal cord.

It is almost inconceivable that the revolver could go off in the manner it did. The coroner's jury rendered a verdict of accidental death in accordance with the facts related.

DREYFUS IN A DILEMMA.

He Solicited Typewriters to Repair and "Soaked" Them.

A sleek young swindler who calls himself E. A. Dreyfus is in the toils of justice through the efforts of Detectives Hawley and Auble. Dreyfus hails from San Francisco, but has been rusticated in Southern California for some time. It is alleged that he has been under arrest at San Bernardino and other places for jumping bond bills and other petty offenses.

In Los Angeles he represented himself as a repairer of type-writing machines. His modus operandi was to solicit machines to repair, which he would pretend to take to his imaginary place of business, but instead of going so he would take them to a convenient pawnshop, get an large loan on them, and then return to Los Angeles to keep out of the owners' way.

Dreyfus is known to have disposed of at least two typewriters in this manner—once belonging to E. T. Dunning, who has an office in the Stimson Block, the other to Mr. Squires of the Abstract and The Insurance Company. The detectives recovered both machines at a pawnshop on First street, where Dreyfus had "soaked" them. They also succeeded in locating and arresting the thief.

Squires's typewriter was made way with two or three weeks ago; Dunning's last Friday. Dreyfus will be charged with embezzlement in the case and larceny in the other. The detectives suspect that he disposed of other typewriters in the same manner.

LETTERS TO THE TIMES.

Eighth Street Franchise Question.

LOS ANGELES, Aug. 5, 1935.—(To the Editor of the Times.) Permit me a few words in your esteemed paper on the Eighth-street franchise question.

Mr. Wilshire seems to think that the property-owners who object to the car line are actuated by selfish motives; he says that the city should go back to China.

"Vituperation is no argument," and it may turn out that it is because he has no valid argument to advance that he calls names.

AN INDUSTRIOUS CLERK.

He was president of the new labor union, and he came into the side-street store hunting up statistics. "How many hours per day do your clerks work?" he asked the proprietor.

"I have but one clerk and he works seventeen hours a day, seven days in the week," answered the proprietor.

"Great Chees!" I'd like to see the clerk that would stand that."

"Here he is," said the proprietor, as he picked up a paper and showed him a neat and attractive ad.

HE TOOK MORPHINE.

Another Attempted Suicide Last Night—Probably Fatal.

Emma Harper, formerly a chambermaid at the Bellevue Terrace Hotel, attempted to commit suicide with morphine last night and at an early hour this morning it seemed probable she had accomplished her purpose.

Capt. Cattle of the Salvation Army was on his way home in company with a young man. Near Ninth and Main streets a woman was seen lying in a doorway with a number of men about her who evidently opposed she was intoxicated. The woman was removed to the Receiving Hospital where everything possible was done for her but apparently without success. She was found to have taken morphine and the work of the deadly drug was too far advanced apparently for human efforts to save her life. She had but 45 cents in her pocket. A note was found stating she had been employed at the Bellevue Terrace Hotel as a chambermaid and had borne a good reputation.

At 2 o'clock this morning she lay in a comatose condition with a prospect that she would live but a short time.

A Small Fire.

The fire department was called out at 10 o'clock last night on account of flames which had started from a coal-oil lamp at No. 321 Lafayette street. The house is owned by J. Colburn. The damage amounted to \$10.

IN SOCIAL SPHERES.

Among the Angelinos enjoying life at Lake Tahoe are: Mr. and Mrs. O. T. Johnson and daughter, Mr. and Mrs. A. P. Johnson, son and daughter, Mrs. H. Jevne, Miss Jevne, Burdette Jevne, Mr. and Mrs. T. D. Stimson, Mr. and Mrs. Blinn, Col. and Mrs. G. Wiley Wells and Mr. and Mrs. Richard Blaisdell.

Last Wednesday Mrs. Blinn and Mrs. Stimson celebrated their birthday, which occurred on the same day. After a pleasant fishing trip on the steam launch Mamie, accompanied by Mr. Jevne and family, they had a charming dinner at the hotel. The table was beautifully decorated with the lovely yellow water lilies from the lake, arranged in an Indian basket. At each place was a souvenir, a dainty, parchment-bound book, inscribed with the date, the monogram "B.S.S." and the name of each guest. Within the book were Lake Tahoe views. The menu consisted of Tahoe trout, a la Blinn, ragout of beef a la Stimson and other dainties. A fine birthday cake was served. The guests were: Mr. and Mrs. Blinn, Mr. and Mrs. T. D. Stimson, Col. and Mrs. G. Wiley Wells and Mr. and Mrs. R. Blaisdell.

BICYCLE AMENITIES.

Encounter Between a Tall and a Short Man.

The question of bicyclist versus pedestrian was rather forcibly discussed yesterday afternoon on Third street, near the Stimson Block. A long, lanky individual was speeding his wheel along Third street, when he came in violent contact with a stout little man, who was crossing the street, and knocked him into the gutter. The cadaverous one slowed up and gently inquired if his victim was hurt. "No," quoth the little one, "but blankety-blank-blank, you'll be!" And thereupon the small one sailed in, he yanked that lanky off his perch, he sat on his chest and he hammered his head, till the crowd cheered for joy. When the small one decided he had punished his man sufficiently, he turned his attention to the wheel; he kicked it across the street and smashed most of the spokes out. Finally the tall one took account of stock of his remains, climbed wearily to his feet, wiped his glasses, humbly apologized and went off pushing his wrecked wheel.

WORK OF THE COPE.

During the month 4692 meals were served to inmates of the City Jail at a total cost to the city of \$199.77, a saving of \$376.23 over the old plan when meals were furnished by contract.

The money taken from prisoners when arrested and returned to them when released, amounts to \$935.53. Bail money turned over to the courts amounted to \$185. Partial fines paid by prisoners also amounted to \$298, fines and forfeitures paid in police courts, \$758.

Prisoners worked in the chain gang a total of 876 days.

The bailiff interpreted in court 13 cases, effecting a saving of \$27 to the city.

The police surgeon treated 155 cases, 22 destitute persons were fed and cared for, 20 women were imprisoned, 22 minors, 10 colored persons and 11 Chinese.

A Kidnaped Journalist Released.

OAXACA (Mex.), Aug. 5.—Dario Perez, one of the most prominent journalists in Southern Mexico, has returned to this city after a mysterious absence of several months. He was publishing a newspaper and indulged in several criticisms of State officials through its columns. One night he was kidnaped and taken to Yucatan, where he was forced into the Federal army.

He succeeded in sending a letter to President Diaz, in which the facts of his abduction and treatment were given. President Diaz promptly ordered his release, and sent him a present of \$100.

Encounter Between a Tall and a Short Man.

The question of bicyclist versus pedestrian was rather forcibly discussed yesterday afternoon on Third street, near the Stimson Block. A long, lanky individual was speeding his wheel along Third street, when he came in violent contact with a stout little man, who was crossing the street, and knocked him into the gutter. The cadaverous one slowed up and gently inquired if his victim was hurt. "No," quoth the little one, "but blankety-blank-blank, you'll be!" And thereupon the small one sailed in, he yanked that lanky off his perch, he sat on his chest and he hammered his head, till the crowd cheered for joy. When the small one decided he had punished his man sufficiently, he turned his attention to the wheel; he kicked it across the street and smashed most of the spokes out. Finally the tall one took account of stock of his remains, climbed wearily to his feet, wiped his glasses, humbly apologized and went off pushing his wrecked wheel.
